

Highly effective against most strains of Barbers Pole Worm – including strains resistant to other anthelmintics. POLE-AXE™ contains naphthalophos, a member of the organophosphorus family of chemicals.

**Active Constituent:** 800 g/kg Naphthalophos

**Controls & Prevents:** It is effective against organophosphate susceptible strains of mature and immature stages of Barber's Pole worm (*Haemonchus contortus*), Stomach Hair worm (*Trichostrongylus axei*), Black Scour worm (*Trichostrongylus* spp.), Small Brown Stomach worm (*Ostertagia* spp.), and mature stages of Thin Necked Intestinal worm (*Nematodirus* spp.) in sheep and lambs.

**Dose Rates & Administration Instructions:** POLE-AXE™ mixes readily with all types of water. Its high suspendibility ensures a consistent uniform suspension during drenching. Refer to product label for administration doses.
