

This balanced blend combines Perennial Ryegrass, Annual Ryegrass and Creeping Red Fescue, supported by slow-release fertiliser to encourage strong germination, dense coverage and consistent lawn performance. The result is a resilient lawn that establishes quickly and maintains a healthy green appearance throughout the year.

Suitable for a wide range of conditions, **iO Robust Lawn Seed** is ideal for home lawns, nature strips and playground areas, helping restore thin turf and create a durable lawn surface.

Robust Lawn Seed is ideal for:

- Establishing new lawns
- Over sowing thin or damaged lawns
- Residential lawns and garden areas
- Nature strips and playground spaces

Blend composition:

- 52% Perennial Ryegrass – supports density and durability
- 30% Annual Ryegrass – assists early establishment
- 3% Creeping Red Fescue – improves coverage and turf texture
- 15% Slow-release fertiliser – supports ongoing lawn nutrition

Designed for year-round use across many Australian regions, this lawn seed blend helps create a consistent, resilient turf surface that performs well in everyday lawn environments.

1kg Grab & Go Bucket – Hard-Wearing Lawn Grass Seed

Establish a tough, hard-wearing lawn with iO **Kikuyu Grass Seed**, a fast-growing grass variety ideal for Australian climates. Kikuyu is known for its vigorous growth, durability and excellent drought tolerance, making it a popular choice for large lawns and high traffic areas.

Supplied in a convenient 1kg Grab & Go bucket, this Kikuyu grass seed for lawn repair and establishment can be easily broadcast by hand, with no specialist equipment required.

Simply grab the bucket, spread the seed and watch your lawn grow.

Kikuyu spreads quickly to form dense ground coverage, helping to repair worn areas and establish lawns in hot, dry or challenging conditions. Its strong growth also provides excellent wear tolerance, making it suitable for active outdoor spaces.

Kikuyu grass seed is ideal for:

- Large lawn areas and open spaces
- High traffic lawns and recreational areas
- Hot, dry climates and challenging conditions
- Fast lawn coverage and soil stabilisation

iO Kikuyu Grass Seed features Turbocote coated seed technology, a specialised formulation containing biostimulants and seaweed concentrate fertiliser designed to support stronger lawn establishment.

Turbocote helps to:

- Improve nutrient uptake from the soil
- Promote stronger root and shoot development
- Retain moisture around emerging seedlings
- Support faster germination and establishment
- Improve recovery from wear and stress

For anyone looking for durable Kikuyu grass seed for Australian lawns, iO provides a simple solution.

Grab. Spread. Grow.

This specialised blend combines Perennial Ryegrass, Annual Ryegrass and Kikuyu, along with slow-release fertiliser to support strong establishment, healthy growth and long-lasting lawn performance. The result is a durable lawn that can withstand regular use while maintaining good turf coverage and colour.

iO Endurance Lawn Seed is well suited to active outdoor spaces, making it ideal for lawns that experience frequent wear from foot traffic, play or general use.

Endurance Lawn Seed is ideal for:

- High traffic lawns and active outdoor spaces
- Parks, playgrounds and sports areas
- Residential lawns and nature strips
- Warm climate regions

Blend composition:

- **55% Perennial Ryegrass** – supports turf density and durability
- **20% Annual Ryegrass** – assists early lawn establishment

- 10% Kikuyu (Turbocote) – contributes resilience in warmer conditions
- 15% Slow-release fertiliser – supports early nutrition and lawn growth

Designed for use across many Australian regions, **iO Endurance Lawn Seed** helps create a durable lawn surface that stands up to regular use while maintaining healthy growth and coverage.

1kg Grab & Go Bucket – Fine Texture Lawn Grass Seed

Create a soft, lush lawn with **iO Couch Grass Seed**, a premium warm-season grass seed designed for Australian conditions. Known for its fine texture and dense growth, Couch grass creates a carpet-like lawn that looks great in gardens and landscaped areas.

Packaged in a convenient 1kg Grab & Go bucket, this Couch grass seed for lawn repair and establishment can be easily spread by hand with no specialist equipment required. Simply grab the bucket, spread the seed and watch your lawn grow.

Couch grass performs best in warm climates and full sun, making it a popular choice for Australian lawns. Its deep-rooted growth provides excellent drought tolerance, while its durable structure helps it recover from regular foot traffic.

Couch grass seed is ideal for:

- Home lawns and landscaped garden areas
- Warm climates and full sun conditions
- Medium to high traffic lawns
- Creating a soft, premium lawn finish

iO Couch Grass Seed features Turbocote coated seed technology, developed to improve germination and support stronger lawn establishment.

Turbocote helps to:

- Improve nutrient uptake from the soil
- Promote stronger root and shoot development
- Retain moisture around emerging seedlings
- Support faster germination and establishment
- Improve recovery from wear and stress

For homeowners looking for high-quality Couch grass seed for lawn repair or new lawn establishment, iO makes it easy.

Create a dense, resilient lawn with **iO Sun & Shade Lawn Seed**, a premium grass seed blend designed to perform across lawns that experience a mix of full sun and partial shade.

This carefully balanced blend combines several turf species to deliver fine texture, strong coverage and improved drought tolerance, helping maintain a healthy green lawn in a range of conditions. The combination of ryegrass, fescue, couch and bluegrass varieties provides dependable lawn establishment and consistent turf performance.

Suitable for many Australian environments, **iO Sun & Shade Lawn Seed** is ideal for lawns that receive varying sunlight throughout the day, such as areas around trees, buildings or fences.

Sun & Shade Lawn Seed is ideal for:

- 
- Lawns with a mix of sun and partial shade
 - Establishing new lawns
 - Repairing thin or worn turf areas
 - Residential lawns, nature strips and playground spaces

Blend composition:

- 57% Perennial Ryegrass – supports strong establishment and turf density
- 12% Creeping Red Fescue – improves shade tolerance and lawn texture
- 9% Couch (Turbocote) – contributes durability and warm-season performance
- 4% Kentucky Bluegrass – supports long-term lawn density
- 3% Hard Fescue – improves resilience in varied conditions
- 15% Slow-release fertiliser – provides early nutrition for establishment

The inclusion of slow-release fertiliser supports early growth and helps establish a thicker, healthier lawn from the start.

Designed for use across many Australian regions, this sun and shade lawn seed blend helps create a high-density lawn cover with strong durability and drought tolerance.
