milktech gold

PREMIUM CALF MILK REPLACER

Protein 25% Fat 20%%

Milktech Gold CMR has been developed to achieve maximum growth rates for your calves.

Milktech Gold CMR is formulated with a balanced combination of dairy fats and proteins, essential vitamin and mineral profile, prebiotics and Bovatec®.

MIXING INSTRUCTIONS

Mixing ratio – 125 g Milktech Gold Calf Milk Replacer to one litre of water.

Dissolve the required amount of Milktech Gold CMR to half the required volume of warm (40°C) water. Mix to a creamy smooth consistency and add further warm water to make up the required amount. Feed at body temperature (38-40°C).

Mix only when required. Keep bag closed when not in use.

Feed after a good intake of colostrum has been achieved. Ensure that clean drinking water is available at all times.

Ensure that calves have access to hay and calf feed.

Keep buckets, bottles and other equipment clean.

FEEDING PROGRAMMES

The quantities in these tables are recommendations only.

DAILY CALF DMI (AS MILK) TARGETS FOR AGE

AGE (DAYS)	MIXING RATE	FEEDS PER DAY	VOLUME PER FEED (L)	DAILY DMI (g)
